

How efficient are GCL solar modules?

It said in November that its 1 m x 2 m perovskite single-junction modules had reached a power conversion efficiency of 18.04%. GCL Group has signed an investment agreement with the government of Suzhou, Jiangsu province, to build a 2 GW perovskite solar module factory.

What is a GCL module?

A GCL module is a residential solar power solution from GCL, best suited for homes. The G-Home Solar Kit from GCL includes energy storage and home energy management systems (HEMS), enabling homeowners to store solar energy throughout the night.

What does GCL do?

GCL targets at making PV-generated electricity affordable and inclusive for the public by its constant technology innovations in polysilicon, silicon wafers, cells, modules, system integration and photovoltaic power plants, continuous improvement of its management, regional layout and green energy certification systems.

Will GCL build a 2 GW perovskite solar module factory?

GCL Group has signed an investment agreement with the government of Suzhou, Jiangsu province, to build a 2 GW perovskite solar module factory. The project will be implemented in several phases, but the group has yet to provide a time frame.

When will GCL integration start manufacturing solar panels?

GCL Integration expects to begin manufacturing activities at the new facility in October. With the new factory, its total solar panel manufacturing capacity will reach 30 GW. The company also announced plans to raise CNY 6 billion through a private placement of shares.

Why should I choose a GCL modular system?

GCL's modular system is versatile and best suited for all kinds of applications, including residential use. The G-Home Solar Kit is a perfect power plan for your home that combines energy storage and home energy management systems (HEMS), allowing home owners to store solar energy throughout the night.
