

This infrastructure, whose official reception is scheduled for September 28, could power up to 300,000 homes thanks to its power of 30 megawatts. Solen, an international company with operations in Gabon, announced this Wednesday, August 28, 2024, the completion of the largest solar power plant, to date, in Central Africa.

The new solar power project was signed by Alain-Claude Bilie-By-Nze, the Gabonese Minister of Energy and Hydraulic Resources, and Praveen Pai, Solen's Director of Operations. According to the agreement, Solen will be in charge of the construction of the solar PV plant. The plant will be commissioned in two phases of 60 MWp each.
