

Molice's new production plant - Molie Quantum Energy Corporation has achieved certification as a gold-level green building from LEED and EEW, marking it as the first high-end lithium ...

As the first battery gigafactory in Taiwan, GUS Technology's new facility has two buildings, a main production base to manufacture lithium battery cells, and a R& D center that is mainly ...

Lithium-ion batteries will play an increasingly large role in helping balance power grids that are struggling to incorporate increasing amounts of intermittent renewable energy. Pushing for greater uptake of energy storage systems (ESS) in Taiwan and abroad

Molice's new production plant - Molie Quantum Energy Corporation has achieved certification as a gold-level green building from LEED and EEW, marking it as the first high-end lithium battery factory in Taiwan to earn this distinction. Casey Shue, President of Molice, attended the U.S. Green Building Council (USGBC) award ceremony, where ...

Gridtential announced a partnership with Taiwan battery maker Pilot Battery Co. that could energize Taiwan's manufacturing sector. The partnership will aim to develop the market for energy storage systems (ESS) in Taiwan through ...

Lithium-ion batteries will play an increasingly large role in helping balance power grids that are struggling to incorporate increasing amounts of intermittent renewable energy. Pushing for greater uptake of energy storage ...

ProLogium Technology Co (???) expects the first electric vehicle (EV) equipped with its solid-state lithium battery to hit the road later this year, the company said yesterday in Taoyuan as it launched the world's first factory for solid-state batteries for commercial use.

A Taiwan Cement Corp (TCC, ???) subsidiary yesterday broke ground for an advanced lithium battery plant in Kaohsiung's Siaogang District (??) at the former site of the cement maker's paper mill.

CTCI Corporation announced on October 25, 2021 that the company and subsidiary CTCI Smart Energy Corporation (CTCI SEC) are contracted by Molie Quantum Energy Corporation, part of ...

As the first battery gigafactory in Taiwan, GUS Technology's new facility has two buildings, a main production base to manufacture lithium battery cells, and a R& D center that ...

In view of the increasing demand for lithium batteries, the client anticipates insufficient production capacity at

its EMT1 and EMT2 plants run by Tainan's E-One Moli Energy Corporation and therefore converts the Taiwan Cement Paper Mill into the EMT3 plant, expanding its capacity to meet the overall operational efficiency.

CTCI Corporation announced on October 25, 2021 that the company and subsidiary CTCI Smart Energy Corporation (CTCI SEC) are contracted by Moli Quantum Energy Corporation, part of Taiwan Cement Corporation (TCC) Group, to build in Kaohsiung a lithium battery factory, the first "gigafactory" of its kind in Taiwan.
