

It is estimated that the large-scale hydropower generation potential for Lesotho is approximately 450 MW. Additionally, there is significant potential for small scale hydro as well as wind and solar energy. As to small scale hydro, there are currently four mini hydro-power stations in the mountains at Semonkong, Tlokoeng, Tsoelike and Mants ...

Mahlaseli Energy is a renewable company that provides solar energy solutions as well as water solutions in Lesotho. In our commitment to the country and planet, we shine bright and hydrate deep, paving the way for a greener, more vibrant ...

Solar PV mini-grid technology is a suitable option for rural electrification in Lesotho due to the country's abundant solar energy resources. Lesotho relies heavily on biomass and imported fossil fuels for energy. Switching to solar ...
