What stood out most: ROYPOW has six offices in the United States: California (main office), Arizona, Texas, Georgia, Indiana and Pennsylvania. That U.S. square-footage is unusual in the home battery space, and it does allow solar installers to purchase ESS directly from ROYPOW and save bit on price.

Aionrise (Delaware, USA) has purchased the fully automated solar panels manufacturing facility located in Georgia, Europe in March 2021. The main target markets for a brand are the USA and Europe. The factory was built by Swiss and German PV technology companies and started operation in 2019 with an annual
