

In 2020 Power Leone signed an MOU with the Government of Sierra Leone to construct and operate 40 solar mini-grid sites with 1.4 MW capacity across rural Sierra Leone. In 2024, Sierra Leone is constructing and commissioning 17 of ...

In Sierra Leone, few renewable power plants have been integrated to the national grid. These plants are the: 6 MW Solar Park Freetwon located at Newton, 10 MW Planet Solar located at Makoth, 10 MW Planet Solar located at Kono, 5 MW Serengetti located at the Bo-Kenema highway, and 32 MW Sunbird Bioenergy located at Mabilifu.

Sierra Leone has adopted a new energy strategy to support the necessary demand for electricity. Access to electricity is at 15% in Sierra Leone, providing a largely untapped opportunity. Sierra Leone offers investment opportunities in several segments of the energy industry including wind energy, solar energy, hydro and bioenergy.
