

Who is greencells group?

Click here for our imprint or here for our GTC. A major player in future-proof green energy, Greencells Group develops, builds, operates and finances utility-scale solar projects worldwide.

What does greencells do?

The Greencells Group is active in more than 25 countries and now employs more than 300 people. The 151 solar plants installed generate a total output of 2.4 gigawatts. To be able to guarantee the basic power supply with renewables, the company builds so-called hybrid power plants that combine solar energy with wind turbines and storage systems.

Who owns greencells Group Holdings?

To keep up with the strong market growth, Hoffmann and Kisauer founded Greencells Group Holdings, based in Abu Dhabi, with investor group Zahid in 2018. Greencells plans, finances and builds solar parks all over the world.

Why did greencells survive?

In 2012, there was a crash and consolidation of the German solar market, which Greencells survived and grew against the market trend. The reason for this was the expansion of its business areas. For example, Greencells entered project development and focused on building large-scale solar plants abroad.

What is Guam Green Growth?

Guam Green Growth is a public-private partnership that develops tangible solutions to sustainability challenges and contributes to a green economy for the island region.

What is the Guam Green Growth Initiative?

The Guam Green Growth Initiative is a program aligned with the 17 United Nations Sustainable Development Goals that aims to cultivate an ecosystem for transformative action to achieve a more sustainable, prosperous, and equitable future for Guam. The 80-member G3 Working Group began meeting in January 2020 to create the G3 Action Framework.
