

Who is green eagle solutions?

Green Eagle Solutions is an international and rapidly growing tech company that offers SaaS solutions to the renewable energy sector. We have developed ARSOS, a Robotic Process Automation (RPA) based software that autonomously operates and apply one-to-one care to hundreds of assets simultaneously.

What is green eagle Arsos & how does it work?

With Green Eagle's technology, renewable assets contribute to the grid stability, become as reliable as traditional energy sources, and increase their profitability. The company's automation platform, called ARSOS, enables renewable assets to operate 100% autonomously, allowing customers to implement revenue-based operations.

Why should you choose green eagle?

We eliminate some of the challenges of orchestrating these assets and simplify the works of all parties involved in the management" says Green Eagle CEO and co-founder, Alejandro Cabrera. "With automation, our customers can leverage this complexity and optimize their business strategy." Since its founding, Green Eagle has grown significantly.

How has green eagle changed over the years?

Since its founding, Green Eagle has grown significantly. ARSOS is now operational with over 15 GW of renewable energy capacity in Spain, which is more than 20% of the total installed capacity in the country, and more than 3 GW abroad.

Many renewable projects are struggling to meet financial obligations, the following 3 challenges aren't just obstacles; they are limiting investment enthusiasm and endangering our global energy transition goals:
