Green World Solutions OU is a company in Tallinn, Estonia. In recent years, we have continuously worked to create something that is not only better, but also different from products available on the market. We are proud to have discovered our ...

Estonia ELF is a NGO that seeks to resist developments that pose a systemic or very serious threat to the nature of our country. They are focused on the three major ecosystems of our nature: the forest, the sea and wetlands, and their creatures.

We support the growth of Estonia's green technology companies and co-operate closely with Pakri Science and Industrial Park. We implement publicly funded green technology development projects and mediate companies for private capital networks from ...

From 13 to 17 November, European Green Capital 2023 Tallinn will host NEXPO, the international greentech

exhibition, focusing on mobility. Taking place in the framework of Greentech Week, the event will convene companies offering sustainable solutions, as well as nearly 500 investors, global visionaries and top researchers from around the world.

Green World Solutions (GWS) is an established service provider in the government industry recognized for skilled engineering, professional, and technical personnel. We are dedicated to our mission of providing business solutions to our customers in a changing, competitive marketplace.
