

Who is greencells GmbH?

He found what he was looking for at Conergy, one of the largest solar companies in Germany at this time, where the event employees were started to deploy on a solar construction site. That was the beginning of the company Greencells GmbH, which he founded together with Marius Kisauer in 2009. Initially, Greencells only installed solar modules.

What is the energy sector in Cape Verde?

Cape Verde energy sector is strongly characterized by consumption of fossil fuels (derived oil-primary imported oil), biomass (wood) and use of renewable energy particularly wind and solar power.

Why should you choose greencells?

Trusted by high profile developers, Greencells puts its extensive expert knowledge at work for clients. PV plant with our O&M and Monitoring Services. For projects with challenging ground conditions, we resort to our customized mounting structures developed in-house.

The company was founded in 2009 by Andreas Hoffmann. After studying systems engineering and law at the Technical University of Kaiserslautern and the University of the Saarland, Hoffmann initially founded an advertising agency, which he sold in 2008. Since some of his employees from the event sector were not taken on by the new owner, Hoffmann looked for a new employer for them. He found what he was looking for at Conergy, one of the largest solar companies in Germ...
