

Under the 2022-2023 national budget, the government committed to initiatives including setting up 140MW of hybrid renewables-plus-storage facilities with private entities, ...

GIS- 28 May 2024: In line with Government's vision to promote Renewable Energy in the electricity mix to 60% by 2030, a 20 Megawatt (MW) Grid-Scale Battery Energy Storage System (BESS), was inaugurated, in presence of the Minister of Energy and Public Utilities, Mr Georges Pierre Lesjongard, this morning, at the Amaury Sub-station.

The government of Mauritius has welcomed the commissioning of a 20MW battery storage project which will provide frequency regulation to the East African island nation's grid. The large-scale battery energy storage system (BESS), provided by German engineering company Siemens, was inaugurated on the morning of 28 May, with dignitaries in ...

It will finance the installation of battery energy storage system to absorb up to 185 MW of Renewable energy, the smart grid, installation of 300 PV mini-grids at Agalega and a total of 25MW rooftop solar PV for households, buildings of public institutions and NGO's and the

In line with Government's vision to promote Renewable Energy in the electricity mix to 60% by 2030, a 20 Megawatt (MW) Grid-Scale Battery Energy Storage System (BESS), was inaugurated, in presence of the Minister of Energy and Public Utilities, Mr Georges Pierre Lesjongard, on Monday morning, at the Amaury Sub-station.

The Government of Mauritius has inaugurated a 20 MW grid-scale battery energy storage system (BESS) at the Amaury Sub-station, marking a significant stride towards its ambitious goal of achieving 60% renewable energy in the electricity mix by 2030.

In line with the Government's RE policy, it will also contribute to reducing the share of fossil fuels on the national energy grid, and contribute to curb greenhouse gas emissions by 40% by 2030. A 14 MW Grid-Scale Battery Energy Storage System (BESS) was inaugurated at the Jin Fei substation, in Riche Terre, yesterday 16 December 2021.

In line with the Government's RE policy, it will also contribute to reducing the share of fossil fuels on the national energy grid, and contribute to curb greenhouse gas emissions by 40% by ...
