

Can chins swap batteries?

Chins did agree to swap the one battery but also told me to charge it at a very low rate for 24hrs to allow the BMS to do the balancing. I charged both batteries in parallel at about 1amp for a few days.

Are Chin batteries bad?

Over the last 2 years or so I've installed over \$20k worth of lithium batteries, many of which are Chins. The early ones had 0 issues from my experience. The newer ones, most specifically the ones with the heater and Bluetooth BMS are the most problematic. Issue #1, they are shipping these batteries without the cells being top balanced.

Does Guam have a missile defense system?

Guam's current missile defense capabilities include an Army Terminal High Altitude Area Defense, or THAAD, battery, with additional defense provided by U.S. Navy warships equipped with the Aegis Combat System and deployed as-needed to the region, according to an Aug. 3 report by the Congressional Research Service.

What is the difference between chins battery monitor and traditional battery monitor?

?Bluetooth function?: Compared with the traditional battery monitor, CHINS lithium battery has added Bluetooth function and can obtain various data (SOC) of the lithium iron phosphate battery. Customers can connect to the battery through the mobile phone APP, and read the battery voltage, current and other important information at any time.
