

What is Guernsey Electricity?

Guernsey Electricity was adopted as the trading name in 1993 and became Guernsey Electricity Ltd in 2001 following commercialisation. Guernsey Electricity is the electricity supplier in Guernsey. In 1998, the Channel Islands Electricity Grid was established to operate subsea cables supplying electricity from Europe, giving a secure, reliable and affordable source of energy.

Does Guernsey Electricity charge a monthly charge?

Where Guernsey Electricity is required to provide a standby electricity service for 'behind the meter' non-renewable energy installations (including CHP) with generation capacity in excess of 25kW, a monthly charge will be applied. For every kW of installed capacity, we charge the standby rate.

How many staff does Guernsey Electricity employ?

Guernsey Electricity employs around 200 staff in a wide range of positions including retail, electrical operations, plumbing, finance, customer service, power station maintenance, and engineering.

Where is the Energy Centre located in Guernsey?

The Energy Centre is located at Admiral Park, St Peter Port, Guernsey Islands, GY1 3TB, Channel Islands.

GROW is working with Guernsey Electricity and the Little Green Energy Company on the solar array project.

The electricity generated will be supplied to Guernsey Electricity for the local grid, so all customers will access locally produced solar energy. Find out more about our Community Solar projects.

In the near future, Guernsey Electricity will be restructuring and rebalancing their tariffs. View the current tariffs. This means the standing charge will be increasing and the cost per unit of electricity will be decreasing. The fixed element of a customer's bill, currently known as the standing charge (or connection fee), represents the cost of being connected to the network.

This splendid array of black-framed panels are made up of 12 x 320W units. The system is installed over pantiles utilising aluminium frames and solar hooks tightly screwed to the rafters. The solar hooks are designed to slip under the pantiles creating a water-proofed finish.
