

Why is Haiti struggling to modernise its energy sector?

Haiti's recent battles to modernise its energy sector serve as a stark lesson for how fraught the business of energy transition can be. In the wake of the scandal, the struggle to provide Haiti's 11 million people with reliable energy - and the desire to attract foreign investment to do so - has taken on an evermore politically charged hue.

What is 10Power doing in Haiti?

10Power has made Haiti its first market and has financed and installed solar power for two water purification centers there. These centers supply clean drinking water to surrounding communities, making them energy-independent. 10Power is helping these communities in Haiti become energy-independent.

How long does a power outage last in Haiti?

Power outages in some areas of the country can last for weeks, while in neighbourhoods near Haiti's National Palace in downtown Port-au-Prince - always politically restive - jerry-rigged siphoning of current has gone on for decades as successive governments dare not act against it.

Does Haiti's Mose need energy?

For Haiti's Mose, who has made the provision of energy nationwide the cornerstone of his presidency, the promise has taken on added urgency as the nation approaches general elections slated for 2021.

Can a private company build a large-scale solar energy project in Haiti?

A private company can collaborate with an NGO to build a large-scale solar energy project in Haiti, according to an article in Forbes. The specifics of the partnership and the company's role are undisclosed.

Can private investment help solve Haiti's energy crisis?

"We have had this energy crisis for a long time, more than 20 years," says Evenson Calixte, managing director of Haiti's Autorit  Nationale de R gulation du Secteur de l'Energie (ANARSE), the nation's energy regulatory authority. "And we believe that one element that can help reform this sector is private investment."

The power struggle that has largely paralyzed Haiti appeared to approach a tipping point on Wednesday as increasingly powerful gangs pushed the nation's prime minister to resign. Here's what to...

A new solar startup is aiming to bring sustainable solar power to Haiti, an island known for its limited access to electricity. In 2016, only 38 percent of Haitians were connected to the electrical grid, according to data from the World Bank.

This act exemplifies the stark contradictions in Haiti -- a nation where gangs simultaneously provide aid to

impoverished communities to garner favor and perpetuate violence that displaces...
