

RES4Africa's report on "Battery Energy Storage Systems in Tunisia" argues that energy storage is an essential tool to enable the effective integration of renewable energy and unlock the benefits of local generation and a clean, resilient energy supply.

We specialize in the manufacture and commercialization of various types of lead-acid accumulators and high-end industrial batteries. With over 70 years' experience, our expertise is widely recognized, making us the undisputed specialist in industrial batteries in Tunisia .

Electrochemical storage (batteries) will be the leading energy storage solution in MENA in the short to medium terms, led by sodium-sulfur (NaS) and lithium-ion (Li-Ion) batteries. Several MENA countries - especially in the GCC - are equipped with competitive advantages in ...

? High-temperature resistance: Choose a lithium ion storage battery that is resistant to high temperatures to cope with Tunisia's hot climate. ? Warranty and service: Choose a brand that provides good after-sales service and warranty to ensure the reliability of long-term use.

This partnership is mutually beneficial since it will allow ASSAD to diversify its products and integrate batteries based on new technologies, such as Lithium. It will also enable it to...

For over 70 years, the ASSAD Group has been the undisputed leader in the battery sector in Tunisia, and remains a major reference on the African continent. Our expertise in the manufacture and marketing of lead-acid and industrial batteries is recognized worldwide.
