In line with Hilti's sustainability priority to reduce its energy consumption, and thus its CO 2 emissions, the company has managed to reduce 60 percent of its own emissions, compared to a "do nothing" scenario, since 2019. In addition to ...

Whether your focus is on thermal power generation, renewables, nuclear energy, natural gas, or electrical utilities or substations, we can provide quality tools and products, as well as expert engineering and project support.

Hilti Corporation (Hilti Aktiengesellschaft or Hilti AG, also known as Hilti Group) is a Liechtensteiner multinational company that develops, manufactures, and markets products for the construction, building maintenance, energy and manufacturing industries, mainly to the professional end-user.

In line with Hilti's sustainability priority to reduce its energy consumption, and thus its CO 2 emissions, the company has managed to reduce 60 percent of its own emissions, compared to a "do nothing" scenario, since 2019. In addition to various energy efficiency measures, one of the key levers to achieve this number was the replacement ...

Our offering for the energy industry ranges from systems for simpler installation and removal of checker plate

in power plants to specialist cordless cable cutters and crimpers for transmission and distribution work. Backed by extensive warranties, these solutions are designed to reduce delays caused by tool and product breakdowns and ...
