

Which solar generator kit should I buy?

If you want a complete home backup solar generator kit that's ready to use, I recommend this EcoFlow Delta Max solar generator + 220W solar panel combo. It's enough to keep your most essential appliances powered and devices charged during an extended blackout. Complete solar generator kit with foldable solar panel.

Where can I buy a solar generator?

Get the EcoFlow solar generator at Amazon (1 solar panel), The Home Depot (solar panels sold separately), Walmart (solar panels sold separately), Campervan HQ (1 solar panel), or EcoFlow (1 solar panel).

Are solar generators a good option for your home?

Solar generators are quiet, lack any harmful fumes and exhaust, and are completely renewable. With a handful of well-placed solar panels, you can provide a FREE supply of backup power for your home. Today, solar home backup power is within reach of everyone.

Can a solar generator power a whole house?

Probably not, unless you get a large solar generator and you have a tiny home. Solar generators are meant to power and charge just a few electronics, not the entire house. If you want to backup your entire house, go with a wired system complete with solar panels on the roof and a high-capacity battery bank.

What is the best solar generator for appliances?

Best Solar Generator for Most Appliances: Bluetti AC200L If you want a solar generator that can power appliances whether it's at home, in your RV, offgrid or anywhere else, our top pick is the Bluetti AC200L.

What is a good portable solar generator?

If you want a portable solar generator that can power most appliances, the Jackery Explorer 2000 Pro is a good pick. It comes with a built-in 2200W inverter, meaning it can power most household appliances including a full size refrigerator, TV, blender and others. You can also run power tools off the 2000 Pro.
