Smartsolar, a leading developer of rooftop PV systems in Honduras designed and installed the 3 MW rooftop power plant in San Pedro Sula in Honduras with 98 SMA Sunny Tripower 24000TL-US inverters. The installation spans 366,000 square-feet of the bottling plant's rooftop.

The Honduran company intends to purchase and install over 3,600 solar photovoltaic (PV) panels at the roof of its facility in San Pedro Sula and the IDB loan will help it do so. Invema will also invest in equipment to produce Pet bottles using up to 100% recycled content.

Colombian energy company Celsia SA has completed installing a 1,288-MWh solar photovoltaic (PV) array on the rooftop of the Mega Mall shopping centre in San Pedro Sula town, Honduras.

In December of 2014, the first 2 Solar Under the Sun systems were installed in Honduras by a team from Northwest Arkansas churches. While there, team members (including SUS staff members) were introduced to this beautiful country and to many communities and opportunities for future projects.
