

Het specialistische HOPPECKE accu programma is een belangrijk onderdeel van veeleisende energieoplossingen. De HOPPECKE batterijen zijn ontworpen voor veiligheid en betrouwbaarheid, en bedienen vier belangrijke toepassingsgebieden: emissievrije aandrijvingen (trak), beveiligde stroomvoorziening (grid), opslag van regeneratieve energie (sun) en ...

Then HOPPECKE brand lead-acid batteries are just what you need. We are happy to take back your batteries and recycle them in our company's own metal smelter. Up to 99 % of the lead can be recovered and used for the production of new batteries. We have been active as an expert in energy storage solutions for almost 95 years.

By using batteries from HOPPECKE in your data centers, you can prevent your data center from crashing in the event of a power failure, therefore preventing data loss. The products specially tailored to the application bridge the time between the start of the power failure and the supply by, for example, diesel generators, which need some time ...

HOPPECKE è sinonimo di qualità di prima classe in tutto il mondo. L'elevato standard qualitativo dei nostri sistemi spazia dalla batteria al caricabatterie, alle unità di controllo, al monitoraggio e agli impianti di riempimento. ... Dutch. Belgio Dutch.
