

Salt batteries use a unique, non-flammable, solid-state design that differentiates them from other energy storage solutions. Unlike lithium-ion batteries, which immerse the cathode and anode in a liquid electrolyte, salt batteries use a ceramic electrolyte of sodium aluminium oxide, often called beta-alumina, that keeps the anode and cathode ...

The research collaboration began in 2016 when the Ticino-based salt battery manufacturer HORIEN Salt Battery Solutions, formerly known as FZSoNick, approached Empa. The company wanted to improve the ceramic electrolyte consisting of sodium aluminum oxide, also known as beta-alumina, in its battery cells as part of an Innosuisse project.

From 19 to 21 June spotlights on HORIEN Salt Battery Solutions that will be present at Intersolar Europe 2024 in Munich in the area called 'The smarter E Europe'; (Hall C2 - Stand 174).

Horien (formely named FZSoNick) is a global leader in energy storage solutions using the sodium metal chloride (SMC) technology. Horien manufactures batteries in Stabio, Ticino (CH), on a plant area of about 20'000 sqm on three floors.

Sfide e opportunit . A Intersolar, la fiera internazionale per le energie rinnovabili, HORIEN Salt Battery Solutions ha presentato le sue batterie al sale. Forte di un'esperienza decennale maturata in molteplici settori e di oltre 1 GWh di prodotti installati, l'obiettivo   raddoppiare i volumi nel 2025.

Materials And Process Engineer - HORIEN Salt Battery Solution  ; Berufserfahrung: HORIEN Salt Battery Solutions  ; Ausbildung: Scuola universitaria professionale della Svizzera italiana (SUPSI)  ; Standort: Stabio  ; 500+ Kontakte auf LinkedIn.
