At the same time, Sunrain uses her excellent technical advantages and production capacity to supply quality and certified products including solar water heater, photovoltaic panel, LFP battery, heat pump and so on.

What is a railless solar bracket?

Unlike traditional railed systems,railless brackets eliminate the need for a continuous rail,simplifying the installation process and reducing material costs. The top-of-pole solar bracket is a mounting system used to securely install solar panels on top of a pole or post.

How does sunrain's solar vacuum tube technology work?

SunRain's solar vacuum tube technology uses an International patented film coating called "3 Hi". Within each solar evacuated tube, 3 systems are used to ensure the most effective heat absorption. This included a AL-N/AI absorption layer but also a second anti-reflection aluminum layer as well as a third copper layer for infrared waves.

Sunrain Solar Water Heating Systems are high specification thermosyphon type hot water heaters designed for long life operation in extreme conditions. Closed loop separates the collector flow ...

Introduction: Solar panel fixing brackets are made using metal stamping technology which is a cost-effective method of producing high-quality metal parts with precision and accuracy, that ensures their durability, strength, ...

SunRain Solar Collectors. Technical Specs: ... With Pre-assembled steel wall bracket; Full port ball valve in return pipe is noise-free, low pressure drop, manual opener for faster line drain service, spring-actuated -

special design for solar ...
