

# How much profit can you get from leasing photovoltaic panels

How much does a solar lease cost?

The short answer is, "it depends," but solar lease rates (also called "rents") typically range from \$250 to \$2,000 per acre, per year. This article looks at the factors that influence the rates a solar developer may offer for your land. Solar developers will only build solar farms in regions where there is a demand for solar energy.

How much does a solar farm lease cost in the USA?

First of all, we discuss what solar farm lease rates in the USA are. Lease rates per acre can vary depending on the region in the USA but typically range from \$300-\$2,500 per acre annually. Are you considering leasing your land to a solar farm? If so, you may wonder about the lease rates.

Are solar panels profitable?

Overall, solar panels present a new and profitable way to increase your income. The industry is growing rapidly, so you can expect to find success. Many types of solar panels vary in efficiency, cost, and electricity production. However, 40% of solar farms use around 3.5 acres to produce one GWh yearly.

How much do solar companies pay for land?

So let's explore how much solar companies are willing to pay for your land with or without leases by looking at sample numbers. Solar farm lease rates are between \$0.25 and \$1.00 per acre (see below for costs to farm or lease). Depending on location, you can make between \$250 and \$1000 per year.

Are solar land lease rates a good idea?

With nationwide interest in renewable energy growing, available land for solar development can be quite valuable. However, solar developers do not follow a "one size fits all" model when awarding solar land lease rate values. Developers must thoroughly evaluate the land to determine what a lease rate may be worth.

How do Solar Lease companies make money?

All the solar lease providers listed make their money by financing a solar system for your home and then selling you the solar electricity from the panels. In most cases, the companies promise you will save money on your power bills in the first year - a win-win situation.
