

What is Yiwei lithium energy doing?

Up to now, Yiwei Lithium Energy has started the construction of nearly 100 GWh power storage battery projects in the industrial park, and cooperate with battery industry chain enterprises such as Enjie, Xinzhoubang, and Kedali to jointly build a new energy industry cluster of 100 billion yuan.

Is Yiwei lithium energy building a large cylindrical battery plant?

In November 2021, Yiwei Lithium Energy has started the construction of a 20GWh large cylindrical battery project for passenger vehicles in Jingmen Power Energy Storage Battery Industrial Park. The industry speculates that the project is a 4680/4695 large cylindrical battery production line.

When did Huizhou Yiwei Lithium Energy sign a strategic investment agreement?

The announcement stated that as early as November 2021, On the 4th, Huizhou Yiwei Lithium Energy signed the "Strategic Investment Agreement" with the Jingmen Municipal People's Government.

Will Yiwei lithium energy build Jingmen power storage battery industrial park?

The agreement stipulates that Yiwei Lithium Energy and its subsidiaries will build the Jingmen Power Storage Battery Industrial Park project with an annual output of 152.61GWh in Diaodao District, Jingmen City, with an investment of 30.521 billion yuan in fixed assets.

What is Yiwei Lithium Energy's second expansion?

This second expansion will further enhance the delivery capacity and meet the order demand of downstream high-quality customers. On March 11, 2022, Yiwei Lithium Energy issued the "Announcement of Huizhou Yiwei Lithium Energy Co., Ltd. on Yiwei Power's plan to sign a "Contract" with the Jingmen High-tech Zone Management Committee.

The two parties intend to give full play to their respective advantages, carry out good cooperation in the fields of lithium-ion battery production and research and development, and reach relevant agreements on the company's new acquisition of land in the area under the jurisdiction of the Chengdu Economic and Technological Development Zone ...

With the advancement of the NEV industry, battery technologies has become the highlight in the New Energy Cobalt-Lithium industry, especially the solid-state battery considering its outstanding performance in energy density and safety.

A few days ago, Huizhou Yiwei Lithium Energy Co., Ltd. (referred to as Yiwei Lithium Energy) has a square aluminum shell ternary battery project with an annual output of 1.5GWh officially put into production in Jingmen, Hubei.

Since 2022, Yiwei Lithium Energy has also announced that it will cooperate with industrial chain enterprises in Huizhou, Guangdong, Yuxi, Yunnan and other places to build two hundred ...

The two parties intend to give full play to their respective advantages, carry out good cooperation in the fields of lithium-ion battery production and research and development, and reach ...

Since 2022, Yiwei Lithium Energy has also announced that it will cooperate with industrial chain enterprises in Huizhou, Guangdong, Yuxi, Yunnan and other places to build two hundred billion new energy battery industry clusters.

On February 7, 2022, Yiwei Lithium Energy announced that it signed a "Strategic Cooperation Framework Agreement" with the Huizhou Municipal People's Government. The two parties will ...

The ship adopts a single-layer deck design, which can carry more than 160 new energy vehicles on a single voyage under full load conditions. The parking capacity is about 60% higher than that of existing passenger and roll on/roll off transport ships.

On February 7, 2022, Yiwei Lithium Energy announced that it signed a "Strategic Cooperation Framework Agreement" with the Huizhou Municipal People's Government. The two parties will deepen strategic cooperation and build ...

On February 7, 2022, Yiwei Lithium Energy announced that it signed a "Strategic Cooperation Framework Agreement" with the Huizhou Municipal People's Government. The two parties will deepen strategic cooperation and build Huizhou's 100 ...
