Hydria is a new technology platform designed to provide a full range of distributed energy solutions to clients in the rapidly evolving industrial gas markets including hydrogen, CNG/RNG through in house manufacturing of type IV and type II cylinders.

In connection with the acquisition, Apollo Funds and CATEC have launched Hydria (the Company), a high-growth compressed gas platform providing equipment and services supporting the CNG, RNG, helium and hydrogen value chain with over-the-road transport, storage and leasing capabilities.

Choosing the best technology for high-pressure gas transport is critical to ensuring reliability and safety. Proper equipment minimizes risks, enhances operational precision, and maximizes efficiencies that foster business, economic, and industry-wide growth.
