VISION Deep Cycle series batteries(D Type, " D" behind the model name stands for deep-cycle application) are designed to have a large amount of stored current discharged between charging sessions, with very heavy non-porous battery plates to withstand repeated maj or

Vision Batteries are designed for use in a variety of applications including alarm systems, emergency lighting systems, uninterruptible power supplies, medical equipment and much more. OSI Batteries is proud to partner with the Vision Group, one of the largest Sealed Lead Acid Battery manufacturers in the world.

VISION Rechargeable Products Sealed Lead Acid Battery General Features UNA12-370 12V 390W Dimensions and Weight Positive and negative plates in lead-calcium tin alloy Superior energy density Operates at a low internal ...

Vision Batteries are designed for use in a variety of applications including alarm systems, emergency lighting systems, uninterruptible power supplies, medical equipment and much more. OSI Batteries is proud to partner with the Vision ...

Vision 48V 1000Ah Telecom Power Supply Project in the Kingdom of Eswatini Nov 27, 2024 Vision Wins Outstanding Supplier Award at ABEC 2024 Nov 18, 2024 Innovative Products Lead the Trend! Vision Shines at All-Energy Australia 2024 Nov 6, 2024 30 Years of Growth: A Look at the Journey of a Long-Standing Battery Company ...

The VISION Deep-cycle battery uses a different chemistry for the plates active paste material, and a slightly stronger electrolyte than normal battery electrolyte, which allows for a much longer life in deep cycle applications.
