

ARVI Systems & Controls Pvt. Ltd, Oman, is an ISO 9001:2008 certified company engaged in the manufacture, export and supply of UPS and other power management solutions since 1998. We at ARVI, offer customized and reliable solutions for all power related issues rather than offering readymade products.

Through its unparalleled commitment to innovation, APC delivers pioneering, energy efficient solutions for critical technology and industrial applications, such as uninterruptible power supplies (UPS), power conditioning, and power strips, as well as sealed lead acid batteries and enclosures.

This fully integrated, end-to-end uninterruptible power supply solutions help you maintain your business-wide networks, data centres, mission-critical systems and industrial manufacturing processes with the highest levels of availability, and ...

A battery power backup system is essential during power outages to power essential devices. Battery suppliers in Oman provide different types of products such as VRLA (Valve-Regulated Lead-Acid) batteries, gel batteries, and energy storage systems (lithium packs).

We pride ourselves on delivering industry-leading power protection solutions combined with service excellence to ensure your Systems are functional all moment of time. We are partnered with APC by Schneider Electric and SOCOMEK to meet all your power needs.

Ensure uninterrupted power with reliable UPS backup services in Oman. Our UPS backup systems offer peace of mind, safeguarding your critical equipment from power outages. Trust our expert solutions for seamless power protection. Contact us today!

The APC uninterruptible power supply (APC UPS) is used to provide a backup power source in the event of power failure. Depending on what it is connected to, the APC UPS delivers a backup source of power to the computer & peripherals, the network, and server, or the data center.

This fully integrated, end-to-end uninterruptible power supply solutions help you maintain your business-wide networks, data centres, mission-critical systems and industrial manufacturing processes with the highest levels of availability, and improved energy proficiency.
