

Mayotte, Albioma exploite un parc photovoltaïque d'une capacité installée de 15,3 MWc. Ses centrales sont toutes implantées dans des zones sans conflit d'usage, comme celle du marché de Mamoudzou qui est, avec ses 725 KW de panneaux solaires, la plus puissante installation en ...

It operates thermal power plants to produce electricity and steam; photovoltaic panel farms in France, Spain, and Italy; and markets photovoltaic installations and panels to third parties and joint ventures.

With an output of 1.2 MW, this plant provides local renewable electricity to almost 1,700 of the island's inhabitants, avoiding the emission of 1,100 metric tons of CO<sub>2</sub> a year. The plant is thus contributing to Mayotte's goal of adding, by 2028, an additional capacity of 60 MW to the 25 MW already installed.

French renewable power producer and developer Akuo has officially opened a 1.2-MW solar park equipped with an integrated energy storage facility on the island of Mayotte in the Indian Ocean.

Mayotte is no doubt the French overseas territory facing the most challenging energy transition. It has the highest cost of electric power generation, at nearly EUR350/MWh in 2021, and the most carbon-intensive production, with fossil fuels accounting for over 95%.

The 1.2 MW plant, constructed by Sagemcom, will supply sustainable electricity to 1,700 residents, supporting Mayotte's target of adding 60 MW by 2028. Featuring Lithium-ion batteries, the plant's storage mechanism stabilizes the grid by smoothing out solar production and injecting stored energy during peak demand, facilitating Mayotte's ...

Experience clean energy with Akuo Energy's 1.2MW Hamaha Solar Park in Mayotte, a French archipelago. Offsetting 1,100 tonnes of CO<sub>2</sub>, the facility provides energy to 1,700 people and a 3.5MWh battery storage system for peak demand. Akuo ...

In Mayotte, Albioma operates a photovoltaic fleet with an installed capacity of 15,3 MW. All power plants are sited in locations free from conflicts of use, including the one above Mamoudzou market, which features 725 KW of solar panels, making it the Group's most powerful rooftop plant.

French renewable power producer and developer Akuo has officially opened a 1.2-MW solar park equipped with an integrated energy storage facility on the island of Mayotte in the Indian Ocean. The Hamaha photovoltaic (PV) plant will support the archipelago's goals of adding 60 MW of renewable energy capacity by 2028 to the 25 MW already ...
