

Here at Invenic we believe that the cost of energy will decrease as we transition to renewable sources. Taking action against climate change brings many advantages, such as lowering pollution and associated healthcare expenses, as well as boosting and diversifying the economy through the adoption of renewable energy and other initiatives.

INVENIC is an environmental construction company providing the design and installation of efficient remediation and solar electrical systems. We are comprised of environmental professionals sharing the common goal of improving the urban environment by creating alternatives for a sustainable future.

The study on "The portrayal of gender in The Merchant of Venice and its effects on students" perceptions of gender roles" was carried out with the aim to understand how the play influenced students' opinions about gender roles.
