Iqn storage Israel

The iSCSI Qualified Name (IQN) format takes the form iqn.yyyy-mm.naming-authority:unique name, where: yyyy-mm is the year and month when the naming authority was established. naming-authority is the reverse syntax of the ...

I have a small baremetal openshift cluster and want to use ISCSI for creating and using PVs. As far as the documentation went i have activated and set up ISCSI on the worker nodes and configured it with the IQN and Storage Mapping on the hosts on a Pure Storage Array. But i am still missing the IQN for the Storage device to create a PV.

As the largest storage company in Israel, we provide a wide range of storage solutions for individuals and businesses. Our warehouses are maintained and controlled and allow you to maintain the equipment optimally in any weather ...
