

Where can I buy a shipping container in Ireland?

With depots in Dublin, Cork, Belfast and everywhere in between, your shipping container, portable office or cold storage solution will be on site in no time. **GET THEM BEFORE THEY'RE GONE!** We regularly have high-quality, second-hand shipping containers and other stock items ready to go at rock-bottom prices across Ireland.

How can a battery storage facility benefit Northern Ireland?

Renewable energy is now supplying more than 40% our annual electricity needs in Northern Ireland. Battery storage facilities like Castlereagh will help match intermittent generation from renewable energy sources, such as wind and solar, with the peaks and troughs of real time electricity demand.

Which self storage solutions are available in Ireland?

Self storage solutions, with a network of 11 safe, secure depots spanning Ireland and Northern Ireland (and many more coming soon). DNV offshore containers, high cubes, office container, insulated containers and more - all available for Ireland-wide delivery.

What types of containers are available for Ireland-wide delivery?

DNV offshore containers, high cubes, office container, insulated containers and more - all available for Ireland-wide delivery. TITAN Containers has been in the container business for more than 35 years and now has one of the largest networks of depots in the country. That means our delivery prices are often lower than any of our competitors.

Can I rent a shipping container in Ireland?

Short or long-term shipping container rental (including our ever-popular 20-footer), plus container offices and more. No lengthy tie-ins. Keep food, farming and medical supplies chilled with our wide range of refrigerated containers and freezers available for hire across Ireland.

ESB's Smart Energy Services offers battery solutions to enable large businesses to store energy generated during low tariff periods and use it when tariff prices are high. Partnering with us is easy. Once we've analysed your energy usage, we'll design a ...

Ireland has set a target of generating 80% renewable electricity by 2030. Deployment of battery storage will be capable of responding in milliseconds to frequency changes, importing or exporting electricity from the grid as needed, ...

Energia's first grid-connected battery energy storage system (BESS) is now operational on our Castlereagh site, just outside Belfast. The facility is located near the existing Castlereagh substation and utilises the local electrical infrastructure to connect to the grid.

Self storage solutions, with a network of 11 safe, secure depots spanning Ireland and Northern Ireland (and many more coming soon). DNV offshore containers, high cubes, office container, ...

Storage for Lithium-Ion Batteries. Electrovault. Temperature Controlled Storage. Thermovault. Full PPE & Safety Can Range. PPE & Safety Cans. Spill Kits, Trays & More. Spill Response. Safe ...

The Gorman battery system, with an installed capacity of 50 MW, is our world's first commercial-scale battery system and the first in Ireland. This project is part of our commitment to promoting battery storage as a key driver of the world's energy transition.

Storage for Lithium-Ion Batteries. Electrovault. Temperature Controlled Storage. Thermovault. Full PPE & Safety Can Range. PPE & Safety Cans. Spill Kits, Trays & More. Spill Response. Safe Transport of Chemicals. Material Handling. Seamless management of hazardous materials across your organisation.
