

Where is JA Solar based?

PHOENIX, AZ (January 10, 2023) -- JA Solar, a global solar cell and module manufacturing leader, announced today it has leased space for its first manufacturing facility in the U.S. in Phoenix, Arizona. The new facility will produce high-performance photovoltaic (PV) products, and is expected to be operational by Q4 2023, creating over 600 new jobs.

Are JA Solar solar panels TUV certified?

The DC cables used in JA Solar's household PV systems are TUV certified to EN50618:2014, with a voltage of 1,500 V, ensuring stable and reliable operation in harsh environments for 25 years. Leading Solar PV Panel Manufacture now in India. Now get BIS Certified Solar System, PV Cells, and Other Solar Products at the best price.

Where can JA Solar products be used?

JA Solar products are available in 135 countries and regions and are used extensively in ground-mounted power plants, commercial & industrial rooftop PV systems and residential rooftop PV systems.

Is JA Solar a bankable company?

JA Solar has retained its AAA ranking in PV Tech's latest PV Module Tech bankability report for Q4 2023, reflecting the company's status in areas including manufacturing, shipments, capacity and technology layout and financial performance.

Will JA Solar manufacture solar panels in Phoenix?

"We are grateful JA Solar will manufacture its high-efficiency solar panels in Phoenix, enhancing Arizona's renewable energy industry." Once operational, JA Solar's Phoenix facility will be the largest manufacturing site of solar/PV products in Arizona with a capacity of 2 gigawatts.

Where will JA Solar build a new manufacturing facility?

JA Solar says it will build a new manufacturing facility in Inner Mongolia, China. The plant will produce everything from polysilicon to solar panels. JA Solar has signed an agreement with the municipal government in Erdos, in China's Inner Mongolia region, to build a new vertically integrated production facility.
