

How much do solar panels cost in New Jersey?

The average cost of solar panels in New Jersey after the federal ITC is \$13,573 compared to the U.S. average of \$16,758. Overall, this makes New Jersey a good state for solar panel costs. Even so, \$13,573 is still a sizable investment for most homeowners, so it's important to plan how you want to finance your solar system early in the process.

Are solar panels cost-effective in New Jersey?

Solar panels can cost a lot of money, but they may be more cost-effective than your usual electricity bill over the long run. You're not on your own when it comes to paying for solar in New Jersey. A combination of federal, state and local rebates can shave a significant portion of the cost off your project.

Why is solar so expensive in New Jersey?

And of course, there are the big-picture factors. Supply and demand in the solar market is always shifting costs on the equipment itself and the labor needed to install it. "Just like all other states, the cost of solar is going to fluctuate, and we're vulnerable to that like anybody else," Oliver said of New Jersey.

What is the average solar irradiance in South Jersey?

South Jersey has a higher average solar irradiance rating than the northern part of the state, according to the National Solar Radiation Database. Solar panels vary in efficiency, with some panels producing more electricity than others of the same size. The average efficiency is around 15% to 20%.

How much does a solar system cost?

Comparing the cost of solar panels to grid electricity is a bit tricky (and is something a solar installer can help you do when you're getting quotes). But here's one way to think about it: Let's say you install a 5kW solar system at the average cost of \$17,500.

Should you pay for solar panels in cash in New Jersey?

Cash Purchase: Paying for your panels in full upfront gives you the best total savings since you start saving money on reduced electricity bills immediately. In New Jersey, paying in cash gives you an average lifetime savings of around \$23,806.
