

Did China's Tiangong space station repair damaged solar panels?

Victoria Bela Published: 9:00pm, 2 Mar 2024 Astronauts aboard China's Tiangong space station performed the orbiting facility's second spacewalk for repairs on Saturday in an eight-hour mission to finish fixing damaged solar panels. Advertisement

Did China's shenzhou-17 astronauts repair a Tiangong solar array?

Shenzhou-17 astronauts conduct first spacewalk to repair solar array China's Shenzhou-17 astronauts embarked on their first extravehicular activity Thursday to address minor damage to a Tiangong space station solar array.

How did Xinlin and Tang Hongbo repair a Tianhe Core Module?

Advertisement Astronauts Tang Hongbo and Jiang Xinlin left the station and used a robotic arm mounted on the outside of the facility to repair the panels on the Tianhe core module, the China Manned Space Agency said.

What happened at China's Tiangong space station?

It was the second extravehicular activity, or spacewalk, of the ongoing Shenzhou 17 crewed mission at China's Tiangong space station. A pair of Chinese astronauts spent eight hours outside their space station last weekend to carry out repairs on the facility.

What was the main objective of the Tiangong mission?

The main objective of the mission was maintenance of the solar array of Tiangong's Tianhe core module. These large area solar panels are at times impacted by micrometeoroids. The pair began extravehicular inspection tasks after confirming repairs to the solar array had resulted in normal power generation.

Will China's Tiangong space station be permanently occupied?

The system was earlier found to have suffered minor damage through micrometeoroid hits. The successful experimental repair work could be seen as a big step for China as it aims to keep its Tiangong space station operational and permanently occupied for at least a decade.

Durability Against Extreme Environmental Conditions: High salt mist and ammonia resistance certified by Tuv NORD. PID Resistance: Excellent Anti-PID performance guarantee limited power degradation for mass ...
