We manufacture reliable solar batteries using advanced techniques to ensure durability and exceptional performance over a long lifespan. Kartel's tubular and lithium batteries are renowned for their robustness and reliability in power backup systems.

Both Angola's non-associated gas project and the Sanha Lean Gas Connection Project - developed by energy major Chevron - support this goal. The \$300 million Sanha project, set to come online this month, will deliver gas to the country's inaugural LNG facility: Angola LNG.

6 ???· Angola is gearing up for a transformative year in 2025, marked by key developments in oil, natural gas, and renewable energy. With a strong focus on maintaining crude production above one million barrels per day (bpd) and diversifying its energy mix, the country is advancing projects in green hydrogen, solar energy, and natural gas.

6 ???· Striving to boost natural gas production while maintaining crude output above one million barrels per day (bpd) beyond 2027, Angola has a strong project pipeline planned for 2025. Beyond oil and gas developments, the country seeks to diversify its energy matrix through investments in green hydrogen and renewable energy. From FID to the start of...
