As an indicator of production quality, Kalyon PV has earned numerous certifications, including the "UL Certification," which verifies compliance with U.S. market standards, the "Hail Test" conducted by TSE to measure the durability of solar panels in hail, and the "Accelerated Stress Test" conducted by TÜV Nord Laboratory, which only qualified panels can complete.

Our high-efficiency solar panels, developed with mastery over all quality processes, are produced in different sizes such as 144 and 108 half-cell configurations, as well as different types like bifacial and monofacial at our Panel Factory.

The company's energy capabilities aligned with the Turkish government's focus on expanding their national expertise in solar power solutions. Turkey prioritizes sustainable research and development (R& D) activities, Turkish owned and developed solar technology, and locally sourced solar panels for each project.

Acabo de firmar el contrato con Kaylon para una instalación modesta de placas solares en mi domicilio. Al principio estaba decidido en instalar 3kW, a pesar de que en todas las empresas a las que he pedido presupuesto me recomendaban entre 2 - 2,5kW.
