

Why is Kazakhstan launching new exploration licences for electric vehicle batteries?

By Olzhas Auyezov and Eric Onstad ALMATY, Sept 13 - Kazakhstan aims to boost output of metals needed for electric vehicle batteries and is issuing hundreds of new exploration licences to attract fresh investment in the sector, the country's industry minister told Reuters.

How reliable is Kazakhstan?

Kazakhstan has signed deals with the European Union and Britain on the supply of critical minerals. "People know that Kazakhstan is very reliable... We've been supplying markets for a very long time," industry minister Kanat Sharlapaev said in an interview this week.

Did European Bank buy a stake in a graphite company in Kazakhstan?

The European Bank for Reconstruction and Development said last month it had bought a stake in a firm exploring for graphite in Kazakhstan.

Why is Kazakhstan a dependable supplier of critical materials?

The former Soviet republic promotes itself as a dependable supplier of the majority of critical materials outlined by the European Union, at a time when Russia has threatened to curb exports and China is tightening control over rare earths. Kazakhstan has signed deals with the European Union and Britain on the supply of critical minerals.
