

Hong Kong's energy and transition finance policies can be aligned with national objectives. This leads to Chapter 5, where we discuss Hong Kong's potential role in facilitating energy transition finance. We present a case study of CLP's transition bond and emphasise the need for a clear transition finance taxonomy in Hong Kong.

Table 1.1 : Overall Energy Balance 1 &quot;Primary energy requirements&quot; (PER) refers to the overall energy consumption within a geographic territory. It represents the total supply of energy available to the territory, which supports all the requirements for energy transformation and final consumption in that territory. 2. Including re-exports. 1.

A Kiewit Corp. unit will design and build the first U.S.-made offshore wind substation--a 1,500-ton, 60-ft-tall structure to be deployed for the 132-MW, 12-turbine South Fork wind farm that is set for construction off New ...
