

The joint venture, KION Battery Systems (KBS), is being utilized to expand the production capacity of lithium-ion batteries (LIBs). LIB systems are quickly growing in demand in the intralogistics market, and in particular, ...

KION Battery Systems starts production of lithium-ion batteries o New joint venture between KION GROUP AG and BMZ Holding GmbH commences operations o Production and development of innovative lithium-ion batteries for intralogistics applications at 4,000m² plant in Karlstein am Main o Target of around 150 employees by 2023

The global intralogistics group and the manufacturer of lithium-ion system solutions set up KION Battery Systems in summer 2019 to produce lithium-ion batteries for industrial trucks. KBS's objective is to sustainably expand its lithium-ion product offering and production capacities for the EMEA region.

As KION Battery Systems - a joint venture between KION GROUP AG and BMZ Holding GmbH - we produce various types of lithium-ion batteries for industrial trucks in Karlstein am Main (Germany). With precision, high safety standards, and state-of-the-art technology, the batteries assembled at KION Battery Systems are of outstanding quality. And ...

The company, a partnership between KION GROUP AG and BMZ Holding GmbH, has now officially put into operation a second production line for manufacturing 24-volt batteries, used in mobile...

KION Battery Systems (KBS), a joint venture between KION GROUP AG and BMZ Holding GmbH, has started production of lithium-ion batteries for industrial trucks. In the summer of 2019, the two companies ...

KION Battery Systems (KBS), a joint venture between KION GROUP AG and BMZ Holding GmbH, has started production of lithium-ion batteries for industrial trucks. In the summer of 2019, the two companies announced a strategic partnership and the establishment of their own production facility in Karlstein am Main, where the BMZ Group is headquartered.

BMZ Holding GmbH plans to join forces with KION Group AG, a provider of intralogistics solutions, to form a lithium-ion battery joint venture. The joint venture will be under the name of KION Battery Systems GmbH.

The joint venture, KION Battery Systems (KBS), is being utilized to expand the production capacity of lithium-ion batteries (LIBs). LIB systems are quickly growing in demand in the intralogistics market, and in particular, Europe, the Middle East, and Africa (EMEA) region.

intralogistics solutions to form a joint venture under the name of KION Battery Systems GmbH. This joint

venture will manufacture lithium-ion batteries for industrial trucks in the EMEA region. The two companies now signed an agreement to this effect. BMZ Holding GmbH and KION GROUP AG will each hold a 50 percent stake in the joint venture (JV).

The development team and other KION experts are looking at the battery's entire life cycle: from the development of new proprietary battery systems and intelligent load management to reconditioning and ultimately recycling batteries, with the existing possibility to recover up to 95% of the raw materials used.
