

The land area of Kirikm e solar park is 110 hectares and it will cover the annual electricity consumption of an estimated 35,000 households. A total of 117,600 solar panels with a total power of 655-665 W will be installed there.

The production capacity of the Kirikm e park, spread over nearly 110 hectares, is 77.53 MW, which is more than twice the capacity of the largest existing solar park in ...

The largest solar farm in the Baltics has opened in the tranquil rural countryside of P rnu County, Estonia; the Kirikm e Solar Farm, which covers 110 hectares (272 acres) and has a generating capacity of 77.53 megawatts, will provide enough electricity to power 35,000 homes each year.

The production capacity of the Kirikm e park, spread over nearly 110 hectares, is 77.53 MW, which is more than twice the capacity of the largest existing solar park in Estonia. It covers the estimated annual energy needs of 35,000 households.

The largest solar farm in the Baltics has opened in the tranquil rural countryside of P rnu County, Estonia; the Kirikm e Solar Farm, which covers 110 hectares (272 acres) ...

The Kirikm e solar park, a collaborative project between Estonian energy company Evecon and French investment fund Mirova, marks a new milestone in the region's renewable energy landscape, boasting more than impressive statistics.

All the recent action of Kirikm e solar park, just as other recent solar projects, marks the levels of development that are moving in that direction. Addition of over 100 MW of solar capacity within a week to end leaves Estonia at a scaling path of renewable energy solutions, however fast.

On Thursday, the Estonian energy company Evecon and Mirova, an asset manager dedicated to sustainable

finance, opened the largest solar park in the Baltics, located in Kirikmäe in Pärnu County.

The largest solar park in the Baltics, with a production capacity exceeding 77 MW, is now in operation in Estonia On Thursday, the Estonian energy company Evecon and Mirova, an asset ...

The largest solar park in the Baltics, with a production capacity exceeding 77 MW, is now in operation in Estonia On Thursday, the Estonian energy company Evecon and Mirova, an asset manager dedicated to sustainable finance, opened the largest solar park in the Baltics, located in Kirikmäe in Pärnu County.

Innovative Solar Park Design. The Kirikmäe solar park spans 110 hectares and is equipped with 117,600 solar panels, with a total power output of 655-665 W. The use of Canadian Solar panels ensures the park's efficiency and reliability in generating clean energy for thousands of households.

Located in Pärnu County, in southwest Estonia, the Kirikmäe solar park is owned by the Baltic Renewable Energy Platform (BREP), a joint venture set in 2022 between Evecon and Mirova.
