Solar panels can help lower your electricity bills and they only require daylight to work, even if the sun is not shining you are still getting free electric! Here at Island Electrics Ltd, we can help consult and advise on what would be best for your property as well as look after your installation with full servicing.

Here you can find a list of installers supplying Solar Panels and Solar PV systems in Guernsey and the surrounding area. You can contact them using the "Get a Quote" system and ask them for information or a quotation at your leisure.

Integrate cutting edge solar photovoltaics into your roof to make it stand out. Building Integrated Solar PV provide beautiful flush aesthetics, complete with an interlock system that creates watertight seal, so the panels become your roof.

The Little Green Energy Company have just installed 309 roof mounted solar panels with Guernsey Electricity Limited on the power station, Northside, Vale, creating the largest solar array in the Channel Islands, generating over 100kWp of power.

More commonly known as Solar PV, these panels are designed to produce clean, renewable electricity from the sun to power your home. It's also possible to sell the electricity your system generates to Guernsey Electricity to supply the island with even more renewable electricity. View the current "Buy Back" tariff.

In 2023 Guernsey Electricity worked in conjunction with The Little Green Energy Company to install the vast community-scale solar array at Grow Limited's newly redeveloped headquarters. The 310 photovoltaic (PV) panels will produce 129-kilowatt peak power (kWp). That's enough electricity to supply power to approximately 35 homes.
