

Is the Inergy Kodiak a good solar generator?

The Inergy Kodiak Solar Generator, launched in mid-2015, revolutionized the solar generator industry. However, Inergy has since upgraded it to the Inergy Apex Solar Generator, which is even better and costs less than the original Inergy Kodiak Solar Generator.

How much does a Kodiak solar generator cost?

This includes the Apex and Flex solar generators. The Flex is currently available and is priced at \$1,350. You can find the Inergy Flex on Inergy's website for more information. Unfortunately, the Kodiak is no longer sold on Inergy's website. They've made two successors to this model since its release - the Apex and Flex 1500.

Is Inergy apex the new Kodiak solar generator?

The Inergy Apex has a more refined look and better specs than the original Kodiak solar generator. It appears that Inergy has looked to expand on this theme with their newest power station.

Has the Kodiak solar generator been discontinued?

The Kodiak Solar Generator has been discontinued. Some previous reviews have mentioned the Inergy Apex Solar Generator instead, but that generator has also been discontinued.

How many watts does an Inergy Kodiak take?

You can compare their stats in my article found here: [Inergy Apex vs Flex - Inergy's Premier Solar Generators](#). The Inergy Kodiak takes in up to 600W from solar panels, which was a high number when it came out and still is to this day.
