The increasing role of renewables in the global energy landscape is integral to Lamprell's growth strategy. As these energy sources become increasingly central, we are committed to collaborating with our clients to impact the environment positively.

In 2007, Lamprell expanded its capabilities with awards for the construction of its first multi-purpose vessel. Since then, we have delivered four to client Seajacks and two to client Fred Olsen. The Seajacks vessels are special-purpose self-propelled four-legged jackups called lift boats and were designed for harsh environments.

Lamprell's Purpose is to deliver quality solutions safely for the energy sector, building a sustainable future. We achieve this by focusing on our strategic objectives, guided by our Vision and underpinned by our core Values.. Our values unite us, shaping our behaviours and driving everything we do.

In September, Lamprell announced the award of two significant contracts from RWE, a global leader in renewable energy, for the supply of 2 x 92 transition pieces for each of the Norfolk Vanguard West and East offshore wind farms. These contracts encompass the manufacture and transportation of the transition pieces to a staging port in the UK.

Lamprell plc, based in the United Arab Emirates, specialises in construction and fabrication, servicing both the Renewables and Oil & Gas industries. It builds wind turbine foundations as well as shallow-water drilling jackup rigs, liftboats and land rigs, and it also carries out rig refurbishment. In 2021 the company added a Digital business unit servicing not only the renewables and oil & gas sectors b...
