

Will the capacity market kickstart the large-scale Bess market in Poland?

The capacity market is set to kickstart the large-scale BESS market in Poland by providing the basic building blocks of the business case, according to numerous delegates interviewed by Energy-Storage.news at Energy Storage Summit Central Eastern Europe (CEE) 2023 in Warsaw in September.

How many GW of energy capacity has Bess been awarded?

Following information from Jan 5th, 2024 of the President of Energy Regulatory office on announcement of capacity market auction final results, the company was awarded 1.2 GW of capacity for its wholly owned six BESS projects, which represent over 70% of the total capacity awarded to BESS technology.

How many GW of Bess projects were offered by TSO?

LCP Delta's Silvestros Vlachopoulos and Jon Ferris wrote that 9 GW of BESS projects had been offered grid connections by transmission system operator (TSO) PSE, while 16 GW of projects had been registered for the then-ongoing round of capacity market auctions by that point.

Is a 50MW project a key market for energy storage in Poland?

The acquisition of two 50MW projects totalling 400MWh of capacity marks the developer's first entry into Poland, which is fast becoming a key market for energy storage in the Central and Eastern Europe region.

Will PGE open a tender for a Bess project in Poland?

State-owned PGE Group, which is Poland's largest power producer by sales revenue and net profit, said earlier this month that it will open a tender for contractors to work on the country's biggest planned BESS project to date.

How many projects in Poland have received a grid connection offer?

As of October 2023, around 9 GW of projects have received grid connection offers from Poland's Transmission System Operator PSE. Only 6 projects with a total capacity of around 1.5 GW, have agreed on the proposed terms with the TSO, with an expected connection date post-2027.

Energy storage developer Pacific Green has agreed to acquire two large-scale in-development battery energy storage system (BESS) projects in Poland, Europe. The acquisition of two 50MW projects totalling 400MWh of ...

Econergy will soon start construction on a 50MW BESS project in Poland, the first of that scale to reach this stage in the market, the Israel-based IPP claimed. The independent power producer (IPP) is already active in the solar PV markets in the Central and Eastern Europe (CEE) region, with 250MW operational in Romania and 52MW in Poland by ...

Poland has made significant progress this year, with the announcement of major reform to the balancing markets encouraging greater participation of battery storage in the capacity market. Last year's auction ...

Energy storage developer Pacific Green has agreed to acquire two large-scale in-development battery energy storage system (BESS) projects in Poland, Europe. The acquisition of two 50MW projects totalling 400MWh of capacity marks the developer's first entry into Poland, which is fast becoming a key market for energy storage in the Central and ...

The draft parameters for this year's capacity market auction in Poland could make the rollout of battery energy storage systems (BESS) much more difficult. The document proposes a significant reduction to the BESS ...

Renewable energy developer and independent power producer (IPP) Greenvolt won 1.2GW of 17-year contracts for six battery energy storage system (BESS) projects it bid in, the company revealed on the same day. It ...

Pacific Green Technologies has announced plans to buy a majority stake in two large-scale in-development battery energy storage system (BESS) projects from an international developer in Poland. Furthermore, the balance of shares in each 50 MW project will be purchased, after project milestones are met.

Renewable energy developer and independent power producer (IPP) Greenvolt won 1.2GW of 17-year contracts for six battery energy storage system (BESS) projects it bid in, the company revealed on the same day. It claimed this equated to over 70% of total capacity awarded to BESS technology, implying the total awarded to BESS was around 1.7GW.

PGE said 6 June that it was preparing to launch a procurement process for turnkey design and construction of a large-scale BESS facility of 263MW output and at least 900MWh storage capacity. The plant will be located in Zarnowiec, a village in northern Poland and will be built close to ESP Zarnowiec a pumped hydro energy storage (PHES) ...

The draft parameters for this year's capacity market auction in Poland could make the rollout of battery energy storage systems (BESS) much more difficult. The document proposes a significant reduction to the BESS derating factor that could be particularly harmful for longer duration storage systems.

Poland has made significant progress this year, with the announcement of major reform to the balancing markets encouraging greater participation of battery storage in the capacity market. Last year's auction awarded contracts to 4 storage projects with around 150MW of capacity, most of which were awarded to local developer Columbus Energy and ...

Greenvolt Group was the biggest winner in the Polish capacity auction held in December 2023. The company was awarded 1.2 GW of capacity for its wholly owned six BESS projects.
