

Does Leclanche offer a battery energy storage system?

Leclanche will also be providing the battery energy storage system (BESS) for the on-shore recharging system for the Damen ferries. This turnkey approach offers significant benefits to future shipbuilders, ports and harbor authorities seeking a frictionless way to accommodate these state-of-the-art vessels.

What is Leclanche E-transport solutions?

Leclanche's e-Transport Solutions team powers the electrification of transport (trains, vessels, trucks and more) through efficient, proven and reliable energy storage solutions. This group creates custom low-voltage battery systems for a wide range of demanding applications.

Is Leclanche a publicly traded company?

Leclanche is the only publicly traded, pure play energy storage company in the world, and is listed on the Swiss Stock Exchange. Discover a selection of our customers and projects in Stationary Solutions, eTransport Solutions and Specialty Battery System. Our core technology expertise ranges from electrochemistry to energy management software.

How does Leclanche work?

Leclanche's 2.35MWh capacity batteries are configured for the 800-passenger vessel's operation while in port without using main engines. The energy storage system is charged from shore power, which is also used for the vessel's other power needs during its stay in harbor.

Will Leclanche build a fully electric ferry?

Leclanche is partnering with Dutch shipbuilding group Damen to build the battery storage systems for two passenger/car ferries that will be the first in North America with the ability to operate fully electric with propulsion systems powered by batteries of 1.9MWh and 4.6MWh capacity respectively.

How safe is Leclanche?

At Leclanche, there's no compromise on safety for our employees and the solutions we design. Leclanche has developed multi-level safety measures on a cell, module and system level - all tested and certified against mechanical, thermal and electrical abuse.

Leclanche is partnering with Dutch shipbuilding group Damen to build the battery storage systems for two passenger/car ferries that will be the first in North America with the ability to operate fully electric with propulsion ...

Leclanche designs, develops, and manufactures customized energy storage solutions for electricity generation and transmission, mass transportation, heavy industrial machines and speciality batteries. This battery energy storage ...

We help commercial and industrial clients reduce their electricity costs by designing Electrical Energy Storage Systems (EESS) that reliably reduce energy demand during peak periods and optimise the usage of onsite renewable energy.

Aimed at reducing the cost, complexity and environmental footprint of stationary energy storage system (ESS) installations, Leclanche; has launched a modular battery storage solution based on easily transportable, plug and play racks that can be put together onsite.

UK private equity firm Pinnacle International is advancing a due diligence process related to a planned strategic partnership with Swiss energy storage solutions provider Leclanche SA (SWX:LECN) that envisages the establishment of a joint venture and the construction of two 2 GWh production facilities.

Leclanche; SA is a world leading provider of high-quality energy storage solutions based on lithium-ion cell technology. We are committed to accelerating our progress towards a cleaner energy future. We have over 100 years of battery and energy storage innovation, powered by German engineering and Swiss quality.

UK private equity firm Pinnacle International is advancing a due diligence process related to a planned strategic partnership with Swiss energy storage solutions provider Leclanche SA (SWX:LECN) that envisages the ...

Funding secured from its main shareholder group will help vertically-integrated energy storage company Leclanche; push forward activities in its stationary storage business, CEO Anil Srivastava has said.

Leclanche; is a provider of energy storage solutions based on lithium-ion technology, focusing on the electrification of transport and renewable energy integration. The company offers products including cells, modules, battery management systems, and energy management software for stationary and mobile applications.

Leclanche; designs, develops, and manufactures customized energy storage solutions for electricity generation and transmission, mass transportation, heavy industrial machines and speciality batteries. This battery energy storage solution provider offers multi-technology lithium-ion battery systems designed to meet specific application needs ...

Leclanche; is partnering with Dutch shipbuilding group Damen to build the battery storage systems for two passenger/car ferries that will be the first in North America with the ability to operate fully electric with propulsion systems powered by batteries of 1.9MWh and 4.6MWh capacity respectively.
