

The Lesotho Electricity Generation Company (LEGCO) is a company wholly owned by the Government of Lesotho. LEGCO was incorporated on the 29 th January 2020 as a public company under the Companies Act of 2011. It commenced its full operations on the 1 st September 2020. LEGCO is mandated to promote generation of electricity in the country and ...

Mahlaseli Energy is a renewable company that provides solar energy solutions as well as water solutions in Lesotho. In our commitment to the country and planet, we shine bright and hydrate deep, paving the way for a greener, more vibrant future.

Lesotho continues to make headway in identifying solutions that foster the country's electrification, sustainable development and climate goals. In partnership with GET.transform, the Ministry of Energy has explored the potential role of carbon finance and trading in mobilising clean energy investment.

The platform helps circulate and propagate tenders, intelligence and business opportunities to its members. Developers, power producers, ministries, utilities, regulators, financiers, and other ...

The move coincided with OnePower's successful bid to develop the first utility-scale solar project in Lesotho, a 20-megawatt project that will sell electricity to Lesotho's central grid in addition to OnePower's minigrid work. OnePower expects that project, named Neo 1, to start delivering power to Lesotho's central electric grid next year.

OnePower (1PWR) is a solar power developer based in Lesotho with both on-grid and off-grid projects. A consortium led by 1PWR won Lesotho's first tender for a utility scale 20MW PV plant, and 1PWR designed, built and operates the nation's first fully licensed and privately financed minigrid at Ha Makebe in Berea district.

The platform helps circulate and propagate tenders, intelligence and business opportunities to its members. Developers, power producers, ministries, utilities, regulators, financiers, and other like-minded individuals can join APP to share possible solutions and ideas on how to solve Africa's lack of electricity.

The objective is to enhance the readiness of Lesotho's private sector to develop, commercialize, and invest in climate and clean energy (cleantech) solutions, as well as to maximize the economic growth opportunities embedded therein, while supporting Lesotho in reaching its Nationally Determined Contribution (NDC) targets.

Mos-Sun Clean Energy Technologies (PTY) Ltd, trading as MOSCET, is a leading renewable energy technology company based in Lesotho. Since our establishment in 2010, we have been committed to

revolutionizing the energy landscape and making a positive impact on communities across the Kingdom of Lesotho.

The primary objective of LEGCO is to develop and implement a systematic well-planned development of power generation infrastructure in Lesotho using hydro, solar and wind resources for meeting local electricity requirements and also trading in energy with other Southern Africa Community Countries (SADC), while guaranteeing energy sovereignty ...
