Lion Güç Sistemleri, yurtiçi ve yurtdisinda genis bir müsteri kitlesine sahiptir. Sirketimiz, her geçen gün ürün yelpazesini genisleterek, müsterilerine daha ...

In 2025, Lion Power Systems will introduce into the marketplace the first commercially viable Solid-State Lithium-ion Battery for the EV and Power Wall markets and for other industrial applications. At its manufacturing facility on the East Coast, United States, LPS will set the standard for the Lithium-ion Battery Industry.

When it comes to power electronics, performance and quality are paramount. Lion Power takes pride in delivering solutions that excel in both these aspects. Our designs undergo rigorous testing to ensure they meet the highest standards, empowering your business with reliable and efficient electronic systems.

We stand behind our products and services. Our persistence in in-house integrated production system from parts to finish products enable to shorten lead time and best quality control. Lion Power Co. Ltd. Is certified to ISO9001, ISO14000 and ISO13485 and takes pride in keeping reliable quality of our products and services.

Today, the Deputy Prime Minister of New Zealand, Rt Hon. Winston Peters is here to break ground on what will become a cornerstone of Niue's renewable energy infrastructure. The new power station, funded through contributions from both Australia and New Zealand, is slated for completion and commissioning by mid-September.

From speed control to torque regulation, Lion Power offers comprehensive motor control solutions for a range of industrial applications. Our expertise in this field enables us to create custom motor control systems that maximize performance and efficiency, empowering your business to excel in ...

The Lion Summit is a portable solar powered generator with 530W of output, multiple outlets and ports, and weighing only 18 lbs. Buy now and have power at your fingertips, wherever you are. ... battery packs for power tools, laptops, drones, lamps, to cameras and phones. Keep projects going with all the power you need. The Lion Summit has the ...

Niue's renewable energy ambitions continue to make strides despite setbacks, including a lightning strike in November 2023, which affected the BESS and solar infrastructure. Prior to the incident, Niue had achieved 38% energy production from solar systems.
