

How did Litton contribute to high technology?

Litton's most significant contribution to the high technology field was its inertial guidance system, which helped keep planes on their flight routes. As a direct result of the effectiveness of this system, Litton procured a \$1.6 billion contract from the Saudi Arabian Air Force. Problems at Ingalls Shipbuilding were eventually corrected.

Is Litton going to be restructured?

There are plans for more restructuring at Litton in the future. New CEO Orion Hoch, who took over in late 1986, aims to reduce the company's reliance on defense contracts and enhance oil services and industrial automation services.

Did Litton Industries buy TASC?

In 1998, Litton Industries bought TASC, Inc. In 2000, TASC sold three stand-alone commercial operations: Adesso Software, WSI (Weather Services International) Corporation and Emerge. The company reported sales of \$5.6 billion and a net income of \$218 million for the 2000 fiscal year.
