available roof spaces for a more environment-friendly resort running on clean energy. The ...

Years ago I did some solar testing with my F6xPS: after 7:31 hrs (aborted) I gained only 2% battery. This was in full sun. Attached a pic from the first 4 hrs. Maybe the solar functionality has increased since then, but the main functionality is still to support the battery to use less battery during an activity.

"This unique technology called SolarSea gathers solar energy directly on the ocean to power the island in an eco-friendly fashion. As part of the resort's commitment to sustainability, LUX* South Ari Atoll has pledged to ...
