

How does energy storage work in Malta?

Malta's innovative long-duration energy storage technology stores electricity as thermal energy from eight hours to eight days or longer, later returning it to the grid to meet hourly, daily, and weekly needs.

Is Malta the first company to commercialize a thermoelectric energy storage system?

Christian Bruch, President and CEO of Siemens Energy, said, "Malta's innovative thermoelectric energy storage system offers a flexible, cost-effective and scalable solution for the storage of energy over long periods of time. With our support, Malta is well positioned to be the first company to commercialize such a solution globally.

Is Malta a ready-to-market energy storage solution?

Today Malta is in advanced discussions with a more than a dozen utilities in Europe, and the Americas over plans to deploy Malta's long duration energy storage technology. As the urgency of the energy transition grows, interest in Malta's ready-to-market, thermo-electric energy storage solution has skyrocketed.

Who invested in Malta energy?

CAMBRIDGE, Mass.-- ( BUSINESS WIRE )--Malta Inc., a leader in long-duration energy storage, today announced that it has closed on a round of financing provided by a group of investors including Siemens Energy Ventures and Alfa Laval as well as existing shareholders Breakthrough Energy Ventures, Proman, Chevron Technology Ventures, and Piva Capital.

What materials are used in a Malta energy storage system?

All materials and components used in Malta's system are fully recyclable and can be reclaimed after use. Common metals and alloys, like steel and aluminum, make up the bulk of the piping, turbines, and other mechanical equipment used in a Malta energy storage system. We Want To Hear From You!

Why is Malta attracting venture capital investment?

That's why technologies coming from companies like Malta, an energy storage technology developer that just raised \$50 million in new financing, are attracting attention and venture capital investment.

Malta spun out from the special projects group at Google's parent company Alphabet and relies on some very old technologies combined in a novel way to provide long-duration energy storage...

With its grid-scale solutions that can store energy up to 50x longer than typical battery technology, Malta is enabling renewable energy to be used more efficiently and effectively, enhancing grid reliability and resilience, and ...
