

Can a solar panel be repaired?

As long as the damage to the solar panel is limited to microcracks or faulty wiring, they can typically be repaired. While microcracks technically cannot be fixed, the problems they create can be addressed. If your glass is flaking off or delaminated, the entire module must be shipped away for repairs.

Does Freedom solar repair or repair a solar system?

No matter who installed your solar PV system, or what model it is - Freedom Solar can maintain, repair and upgrade any system for maximum energy production and efficiency: Freedom Solar employs a full-time staff of solar experts. If you have a question about your system or need maintenance, request service below!

How much does a solar panel repair cost?

The average solar panel repair cost is \$750 (USD) but can range from \$120 to \$3,000. Solar panel cleaning and maintenance costs are around \$8 - 25 (USD) per panel, or \$500-700 annually, depending on a few factors, such as how many panels you have. Is Repairing Solar Panels an Effective Solution?

What if I have a broken solar panel?

If you have a broken solar panel, call our Service Department first. You should never attempt to remove a solar panel on your own. Our service team will either repair it off-site, or recycle the panel at a glass recycling facility. Alternatively, you can post your panel online and give it to someone who will repurpose it.

Do solar panels need maintenance?

Although solar panel systems don't usually require active or routine maintenance, some homeowners purchase a solar operations and maintenance (O&M) package for added peace of mind. O&M service packages are essentially insurance plans for your solar panel system that include things like cleaning, electrical system checks, and pest control measures.

Can PV panels be repaired?

Minor damage to your PVs can be repaired, and that panel can go on to be used for the rest of its expected lifespan. However, if panels or glass are broken, you are better off replacing them. While new glass can be applied, replacing them with new modules is cheaper in the long run.
